The San Diego Library inspires and supports students, faculty, and staff in all facets of their pursuits to learn, create, and share knowledge.

As a key partner, the San Diego Library endorses the mission, vision, and values of the Woodbury University Library. The following plan is the San Diego Library’s promise to Woodbury University.
ENHANCE STUDENT LEARNING

Students’ evolving needs demand that we transform research services, reconceptualize the library as a place, and strengthen reference services to equip students with skills for lifelong success in an information-intense world.

Performance Analysis Measure: Student evaluations, accreditation, annual library survey

GOALS

Actively partner with faculty in curriculum design, teaching critical thinking, digital literacy and information fluency

Deepen and expand ties with relevant faculty, staff, and students to position the Library as a new kind of interdisciplinary laboratory in which scholars engage with materials, colleagues, and students to produce experimental projects and new forms of knowledge

Continue to reimagine LSCI 106: Information Sources in Architecture so that it remains relevant in the changing landscape of 21st century information literacy

View the library as laboratory: support student and faculty success by creating an environment with flexible and varied physical and virtual spaces that offer places for teaching and learning; individual research and study; collaborative work; and cultural, social, and intellectual exchange through events and exhibits

Nurture library employees to participate in professional development and community activities to increase their knowledge base

Promote the ability of support staff to serve as reference assistants when the librarian is not available or accessible

Performance Analysis Measure: Annual library survey

Performance Analysis Measure: Reference statistics, annual library survey
**ENGAGE WITH THE COMMUNITY**

Reinvigorate outreach efforts and inform the community through a series of events that contribute to the economic, cultural, and social well-being of the people of Woodbury and beyond.

Performance Analysis Measure:
Attendance at events, annual library survey

Performance Analysis Measure:
Circulation statistics, gate count

**GOALS**

Develop and accommodate discussion panels, workshops, and exhibits that serve as an interdisciplinary, collaborative ecosystem for the campus

Increase opportunities for the community to interact with the Library and with one another

Foster collaborative events with local libraries

Encourage the use of library resources in new ways to foster learning and knowledge creation

**BUILD AND ENHANCE THE COLLECTION AND SERVICES**

Transform the collection, increase ease of access to materials, and embrace new technologies to maintain a commitment to provide powerful tools for discovery.

Performance Analysis Measure:
Collection analysis, annual library survey, circulation statistics

Performance Analysis Measure:
Circulation statistics, interlibrary loan statistics, annual library survey

Performance Analysis Measure:
Annual library survey

**GOALS**

Develop an architecture collection that is research-oriented and global in scope

Ensure continued development and promotion

Strengthen collection to meet changing curriculum and research needs

Enable the Library to become a fully functional operation, in coordination with the main campus, to establish a much more streamlined and transparent workflow

Foster interlibrary loan with local libraries

Prioritize the purchase and instruction of the most up-to-date technologies that fulfill needs, improve efficiency, and enhance access to information
